Natural Olives

Olives are considered one of the most important fruit crops in the Mediterranean territory.

In Greece, there are several varieties of edible olives, such as Kalamata olives, Amfissa olives and Chalkidiki green olives, amongst others.

The color of the olive (violetish-brown, black or green) varies, depending on how ripe the fruit is.

Scientific research confirm the high nutritional value and the antioxidant action of edible olives, as they are rich in fiber, minerals, monounsaturated fat and vitamin E.

“Korvel Green Olives”

Harvested by hand, ageing the traditional Greek way in a brine of sea salt. Can be also stuffed with white raw almond or red sweet pepper. Ideal for your snack!

“Korvel Kalamata Olives”

These famous Greek Olives grow in the Southern Greece, in Kalamata area. Almond-plump shaped, dark purple olives, carefully handpicked and then preserved in a brine of sea salt and natural wine vinegar.
